PEACH—ROBERT'S HALE AND DIAMOND KING
Very large; yellow freestone with a red blush; extra highly flavored;
extremely hardy; has stood many degrees below zero uninjured. Think
of a two-year-old DIAMOND KING tree bearing two bushels of
peaches the second year, which sold for \$5.70. Figure one acre or 100
trees at this rate! The heavy bearing ROBERT'S HALE PEACH has
produced 10 or 12 bushels per tree from seven-year-old trees. These
sold at \$4.75 per bushel here last year. Every home orchard should
include ROBERT'S HALE and HARDY DIAMOND KING trees.
